

<DECODE>: ARTISTS POLICING DATA

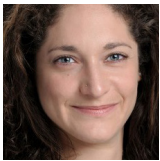

BIG CONVERSATIONS 2
DATA VS. INFORMATION: ART VS. SCIENCE
THURSDAY, DECEMBER 20, 2018, 6 - 8 PM

When raw facts and figures like data are cohesively connected they become information that is knowledgeable. When scientific facts are combined with artistic expressions they stir strong feelings of connection. Would the iconography and story that comes out of bringing art into data information and science lead us to understand the world better? Are artists leading us through different ways in reconnecting and analyzing data that could contribute to startling discoveries?

Join us for a conversation on these and related questions as we look at them from different perspectives.

SPEAKERS: Alyssa Wise, Maria Paola, Laurie Frick, Amelia Marzec

MODERATORS: Gayil Nalls & Jayanthi Moorthy

ALYSSA WISE, PhD
Director, NYU Learning Analytics Research Network (LEARN)
Geof is currently the Chief Records Officer and Chief Law Librarian of the New York State Unified Court System, where he oversees the management of records and legal information in over 1500 courts across the state. He is an archivist, an artist, and a poet.

AMELIA MARZEC
Artist, Educator, Performer
Amelia Marzec is an artist focused on rebuilding local communications infrastructure to prepare for an uncertain future.

MARIA PAOLA SUTTO
Core member of Urban Design Lab, The Earth Institute, Columbia University
Since 2008 she has been a core member of the Urban Design Lab at the Earth Institute, Columbia University, contributing to innovative and interdisciplinary research on climate change, and the urban environment.

GAYIL NALLS, PhD
Artist, Naturalist and Theorist
Gayil Nalls is an Adjunct Professor at the University College Dublin and a Contributing Editor for Nautilus Magazine.

LAURIE FRICK
Data Artist, Entrepreneur, App Developer
Using her background in high-technology Frick creates physical works and large scale installations that imagine this completely wired 'data-selfie' future. Her insights on consuming data are recently featured on NPR, Atlantic, Wired Magazine; and has been invited to talk at Google, Stanford and TEDx.

JAYANTHI MOORTHY
Artist-Curator, Art Educator, Learning Designer
Jayanthi Moorthy is an interdisciplinary artist with a background in learning design and business administration. In 2017 she won a Creative Engagement award from New York Cultural Council for her public art community project *Art Fast*.
